***Claim Objections***

1. Claims 8-15 are objected to because of the following informalities: Regarding claim 8, Applicant is requested to amend the claim to reflect an object of the invention in providing an improved method and transmission system for compensating jitter, i.e. by having a feature in which the reception time stamps are to be derived from the same clock time as whereof the transmission time stamps are derived. Having a receiver wall clock which is similar to the transmitter wall clock as claimed does not imply the clocks being configured with the same basic time reference. The same remark applies to claims 14 and 15.

Appropriate correction is required.

***Allowable subject matter***

2. Claims 1-7 are allowed.
3. Claims 9-13 are objected to as being independent upon a objected base claim, but would be allowable if claim 8 overcome the objection set forth in the Office action.
4. Claims 14-15 would be allowable if claim 8 overcome the objection set forth in the Office action.
